

Jane Doe

Munich, Germany | [+49 151 00000000](tel:+49 151 00000000) | jane.doe@example.com

PROFESSIONAL PROFILE

Senior Data Engineer with over four years of experience designing, building, and operating batch and streaming data pipelines. Proven ability to improve pipeline performance, introduce automated data quality checks, and mentor junior engineers. Strong expertise in Python, SQL, Apache Airflow, dbt, Kafka, and AWS cloud services, complemented by hands-on use of Terraform and Docker.

CORE SKILLS

Programming Languages: Python, SQL, TypeScript, Bash

Data Engineering: Apache Airflow, dbt, Spark, Kafka, PostgreSQL, Redshift

Cloud & Infrastructure: AWS (S3, Lambda, ECS), Docker, Terraform, GitHub Actions

Machine Learning: scikit-learn, PyTorch, MLflow, feature engineering

PROFESSIONAL EXPERIENCE

Senior Data Engineer

Nordwind Analytics GmbH

Berlin, Germany

2023-04 - Present

- Rebuilt the nightly batch pipeline with Airflow and dbt, reducing end-to-end run time from 6 hours to 40 minutes and eliminating silent partial-load failures.
- Introduced contract tests between ingestion and downstream marts, cutting reported data incidents from ~8 per month to under 2.
- Mentored two junior engineers, establishing code-review standards and onboarding them to on-call responsibilities.
- Consolidated 30+ legacy cron jobs into a single orchestrated DAG with alerting and retry semantics.

Data Engineer

Helioform Systems

Munich, Germany

2020-09 - 2023-03

- Designed the warehouse schema (PostgreSQL, later Redshift) that underpins all operational reporting.
- Built a near-real-time Kafka consumer to track shipment events, replacing a spreadsheet-based workflow.
- Automated the monthly regulatory export, saving roughly two working days of manual effort each month.

Research Assistant, Institute for Applied Statistics

Universität Beispielstadt

Beispielstadt, Germany

2019-02 - 2020-08

- Maintained the simulation codebase supporting three concurrent research projects.
- Co-authored a conference paper on missing-data imputation strategies for sparse sensor networks.

EDUCATION

M.Sc. Statistics

Universität Beispielstadt

Beispielstadt, Germany

2018-10 - 2020-09

B.Sc. Applied Mathematics

Fachhochschule Musterstadt

Musterstadt, Germany

2015-10 - 2018-08

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate, *2023-11*
- dbt Analytics Engineering Certification, *2022-05*

PROJECTS

openbahn-delays

Author & Maintainer

2022-01 - Present

Open-source dataset and dashboard tracking regional rail punctuality (≈ 600 GitHub stars). Handles roughly 2 million events per day on a small VM and has been cited in two local newspaper articles.

Warehouse cost model

Developer

2024-03 - 2024-06

Internal tool estimating per-query warehouse cost and flagging expensive dashboards, reducing monthly compute spend by about 18%.
